

STRATA[®]
SPORT

STRATA-SPORT PLUS

Strata-Sport Plus is a padded polyurethane sports surface designed to provide years of quality performance. Using the latest technology in polymeric science, the product offers outstanding wear resistance and color stability, to go along with excellent athletic characteristics, including **great shock absorption**, **optimal friction characteristics**, and **outstanding ball bounce**. Strata-Sport Plus is tough enough to withstand daily use and can last the life of your facility with proper maintenance; yet is also gentle enough to provide critical biomechanical qualities to **increase safety and comfort** for athletes.

- Improved environmental performance and indoor air quality with water-based urethane top coats and game line paints
- New vibrant colors
- Easier to clean, sanitize, and maintain
- Proud to be American-made
- Free of all heavy metals and fluorocarbons

Pad Thicknesses

Strata-Sport Plus' resilient base mat underlayment is available in thicknesses from 4mm to 9mm, allowing the specifier to choose the most appropriate level of performance based on intended use and budget.

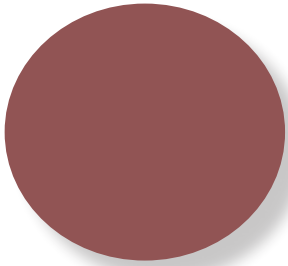

<u>Thickness</u>	<u>Common Name</u>	<u>Nominal</u>
4mm	"4+2"	~1/4"
7mm	"7+2"	~3/8"
9mm	"9+2"	~1/2"
